To complete the clause, select the appropriate wording from below. Highlighted text can be 'dragged and dropped' to save typing.

### **K32/112A PANEL CUBICLES – FULLY FRAMED**

Prospec Ltd manufacture a range of fully framed cubicle systems, designed for durability, water and chemicals resistance, to withstand wet use, the rigours of cleaning and deter vandals.

Matching panels and other similar work

Use NBS clause K32/130A to include matching privacy screens. Use clause L20/480 for isolated cubicle fronts and doors in matching system.

Use NBS clause N10/350A for matching vanity units (without wash basins).

Use NBS clause K13/160A for matching wall linings.

Alternatively, add further clauses to section K32 to include matching panels and other similar work.

### [Marathon SYSTEM E](#)

Designed for high-use public changing rooms and toilets. With Compact grade Laminate, With Toughened glass for high-use shower rooms. Compliant with current DDA legislation.

### **Marathon SYSTEM E**

A fully framed system with head rail designed for high-use public washrooms, changing areas and WCs, in demanding public environments.

Door frame with "Safe edge" anti finger trap detail.

The extruded aluminium 100 x 28mm elliptical headrail mechanically joined to 130mm, 245mm and 265mm wide elliptical aluminium pilaster profiles with screwport connections to form a structural framework.

Laminate, Solid surfacing have water and chemical resistance, to withstand wet use, the rigours of high-pressure hose down cleaning methods and deter vandals.

Glass panels and doors for use in shower areas.

Partition panels supported on adjustable legs mechanically connected to pilaster components.

Full-length channels are used to attach partition and pilaster panels to walls.

Partition panels secured into pilaster frame with high modular anti fungal silicone adhesive.

Full integration with Marathon DPS access panelling system.

Marathon Cubicles are installed by Prospec Employees.

Consult Prospec Ltd technical literature for details and colour availability.

Prospec also offers a design service with CAD drawings and it is recommended that they be consulted early in the design process. To comply with Building requirements for manoeuvring space toilet cubicles should be 1500mm deep and a Maximum of 900mm wide.
